aks-L5

aks-low weight bed with maximum comfort

- 1 maximum variability by 4-sectional lying surface (metal grid or wooden slats)
- 2 best operability: height, back rest and foot section electrically adjustable, foot section with knee kink which is adjustable per hand control while lying in bed without nursing – patented!
- 3 on both sides integrated, twisting proof side rails – with legal protection of registered designs- , easy to apply also after assembly of the bed, metal side rails are optionally available with surcharge
- 4 easy assembly and disassembly by one person, head board and foot board are very light weighted
- 5 power disconnection: this safety system disconnects the bed all pole from the main power when the hand control is not in operational use.
- 6 ergonomically designed hand control with large keys, with integrated lock function by nursing key to prevent misuse
- 7 incl. monkey pole and triangle grip

optional:

- 8 easy transport and storage by the transport and storage aid
- 9 heightening for side rails, e. g. for use of high cell mattresses more than 19 cm (wood)
- 10 upholstery for side rails
- 11 lengthening piece for bed and also for mattress of 20 cm for tall patients

Maximum mattress height		Side rails	
		Wood	Metal
Lying surface	Wood	15 cm	17 cm
	Metal	17 cm	19 cm

Subject to alterations.

Technical data

Lying surface (W x L)	90 x 200 cm
Dimensions (W x L)	104,5 x 219 cm
Height adjustment	from 40 to 80 cm (without mattress)
Safe load	185 kg
Max. patient's weight	150 kg
Individual weights	≤ 20 kg
Input voltage	230 V ~, 50/60 Hz
Power input	150 W, max. 2A
Protection class	II, application part type B
Protection system	IP X4
Applied standards	DIN EN 1970:2000 + A1:2005 DIN EN 60601-1-2:2007-12 DIN EN 60601-1:1996-03 DIN EN 60601-2-38:2001-07 (as applicable) prEN 60601-2-52:2007

Warranty

Ref. No. The bed is available in four versions and optional on transport and storage aid or packed/ palleted.
