

aks-L4/aks-L5

The standard bed for home care, with more comfort for the patient and the carer. The lying surface can be electronically adjusted, enabling back-friendly work.

- For patients with a maximum weight of 150 kg
- Hand control for electronic adjustment control: bed height, head and foot support
- aks-L5 for additional functions with hand control: adjust the knee bend to raise the feet
- Attractive, easy-to-clean beech decor
- Four castors (separately adjustable)
- Includes wooden side rails on both sides, reach pole with triangle grip and strap
- Lying surface optionally with wooden slats or metal grid
- Foot down positioning optional (see small fig. 3)

Accessories for aks-L4/aks-L5

- Heightened for wooden side rails • Side rail padding
- Lengthened for taller patient care (20 cm)
- Infusion holder • Retrofit kit foot down position

aks-D4 low entry

The low entry bed for home care. The low height of 22 cm (from the floor) reduces the risk of injuries from falling out.

- For patients with a maximum weight of 150 kg
- Low entry and exit height of only 22 cm (fig. 1)
- Hand control for electronic adjustment control: bed height, head and foot support and adjustable knee bend to raise the feet
- Attractive, easy-to-clean beech decor
- Four castors (separately adjustable)
- Includes wooden side rails on both sides, reach pole with triangle grip and strap
- Lying surface optionally with wooden slats or metal grid
- Foot down positioning optional
- Can be combined with the bedside fall mat (fig. 2) to protect against injury

Accessories for aks-D4 low entry

- Heightened for wooden side rails • Side rail padding
- Lengthened for taller patient care (20 cm)
- Infusion holder • Retrofit kit foot down position

aks from Troisdorf, Germany

Our products are developed and produced in Troisdorf, Germany. We have been well-known manufacturers of technical care aids across Germany and Europe. Patients, carers, retailers and health insurance companies value and approve of our products. Our care beds are absolutely safe, reliable and durable. Our daughter company **aks pura GmbH** in Troisdorf is divided in three business sections: puratec, puracare and purawell.

puratec: Hygienic preparation, service & repair of foam and alternating pressure mattresses and seat cushions.

puracare: Products around the care bed.

purawell: Comfortable mattresses and cushions for a healthy sleep.

Medical aids for the care by aks:

- Mobile patient hoists
- Transfer aids
- Care beds
- Anti-decubitus alternating pressure systems, foam mattresses and seat cushions
- Bariatric care products

aks care beds

Functional solutions for back-friendly care

aks-S4

The comfortable bed for home care with the stable scissor profiling.

- For patients with a maximum weight of 135 kg
- User-adjustable: bed height, head and foot support and knee bend to raise the feet
- Comfortable and easy-care beech decor
- Four castors (can be individually adjusted)
- Including wooden side rails on both sides, reach pole with triangle grip and strap
- Optional: infusion holder
- Lying surface optionally with wooden slats or metal grid
- aks-SB also available in L, XL and XXL up to 300 kg patient weight and lying surface up to 140 x 240 cm

aks-S4

Accessories for aks-S4

- Heightened for wooden side rails
- Side rail padding
- Lengthened for taller patient care (20 cm)
- notto puracare night table

aks-B4 compact

To keep patients in a familiar environment, the bed insert was developed for use with an already existing bed frame at home. Height adjustment for an optimal working height relieves carers.

- For patients with a maximum weight of 150 kg
- User adjustable: bed height, head and foot support and knee bend to raise the feet
- Entry height of ca. 30 cm
- Lower frame width 81 x 116 cm
- Stable metal frame with wooden slats on the lying surface
- Optional: Side rail, heightened side rail, reach pole with triangle grip and strap, infusion holder
- aks-B4 also available in L, XL, XXL up to 300 kg patient weight and lying surface up to 140 x 240 cm

aks-B4 compact

notto by puracare

A night table at the care bed offers support for everyday care

- Integrated pull-out bed table
- Can be used from two sides, pull-out drawer on both sides, freely accessible middle compartment and door on both sides in the lower area with removable shelves
- Four castors and two lockable castors for secure positioning

purzel by puracare

Bedside mat to intercept falling out of the bed. The wedge shape on both sides protects against rolling off the mat after any fall out of the bed.

- Positioning in front of the bed
- High-quality PU foam
- Can be folded
- Can be stowed to save space
- inkoair® cover, impermeable to liquids, with non-slip underside
- inkoair® cover with zip; can be removed and washable at 60 °C
- Transport grips on the underside
- Size (W/L/H) 100 x 190 x 5-15 cm

purzel and aks-D4 low entry

Accessories for aks-B4 compact

- Widening set for lying surface
- Heightening set for better stability and use with hoists

silverdorm and silverrelax by puracare

The silverdorm and silverrelax mattress provides a comfortable alternative to common standard foam mattresses for care beds.

- High-quality viscoelastic foam surface (silverdorm) or high-quality PU-foam (silverrelax)
- Ventilation tube on the side, ventilation holes on top
- Includes silverline cover (the silver-ionised coating has a antimicrobe effect and is recommended for dust mite allergy sufferers)
- Mattress sizes: 90 x 200 and 100 x 200 cm
- Easy transportation by practical rolling
