

aks microplot plus

For decubitus prophylaxis and therapy. The plus to stable soft lying

UP TO
GRADE II
EPUAP

Cube mattress with stable trough for optimum soft lying. Also specially for low body weights due to particularly soft, cube structured horizontal area.

Patient weight 40-120 kg

For decubitus prophylaxis and therapy support up to and including Grade II (acc. to EPUAP)

The advantages of the aks microplot plus:

- Cube-structured lying area with low compression hardness for optimised soft lying
- Specially rounded cube surfaces provide better distribution of the patient weight on the largest possible area; this causes reduction of the support pressure with reduction of the shear forces
- The cube section makes air circulation in the mattress possible Edge zone reinforcement for support of the mobilisation of the patient
- Adaptable for adjustment of the bed lying area
- The mattresses are delivered covered, rolled and vacuum packed.
- inkoair® mattress cover is fire resistant after Bs7175, section 3 (Crib 5) and certified according to OEKO-TEX® standard 100 (product class 1), it is free of latex, bi-elastic and washable up to 95 °C
- Mattress with aks inkocover stretch cover or with inkoair® mattress cover, available in 90/100 x 200 x 16 cm
