

aks variosit 8/10

Two foam cube seat cushions for personalised use in wheelchairs

**UP TO
GRADE IV
EPUAP**

The advantages of the aks variosit 8 and aks variosit 10 seat cushions:

- 5 x 5 cm foam cubes allow for a wide range of available seat cushion sizes and thus the supply of individually tailored seat cushions
- Additional pressure relief can be provided by removing specific individual cubes from the underside to provide a virtually hollow structure under particularly sensitive buttock areas, e.g. in the vicinity of the ischium
- Sitting posture can be adjusted for patients with defective body positions, e.g. spinal distortion or scoliotic pelvis, by removing foam cubes
- The cubes at the edges are bonded to the upper foam layer to provide comfortable sitting support. The inserted mesh additionally adds support and makes removing cubes easier
- The two cushions differ in overall height (8 cm/10 cm) and in the choice of foam material combination
- Water-impermeable inkoair® seat cushion cover for protecting the cushion, e.g. in cases of incontinence

Option

- 3D air seat cushion cover for improved air circulation

Patient weights

aks variosit 8, 20-80 kg

aks variosit 10, 70-130 kg

Decubitus prophylaxis and therapy support up to and including Grade IV (acc. to EPUAP)
